

Pilot Overview

What your school or district receives — and what a pilot asks of you.

WHAT YOU RECEIVE

- › **The full curriculum library** — five K–12 grade-band books (K–2, 3–5, 6–8, 9–10, 11–12) plus the Adult Edition: scripted Direct Instruction, anchor charts, reproducible worksheets, scenario cards.
- › **Illinois SEL Standards alignment** in every lesson, with a master Score → Intervention crosswalk per unit.
- › **The Universal Check-In** (Grace Compass) — a 5-minute digital screener across three domains that routes each student to the exact lesson, anchor chart, and right-now tool.
- › **MTSS reporting dashboard** — Individual / Class / School-wide views, tier movement, auto-summaries, CSV export, printable cover.
- › **Quick-Start & Start-Here guides** for every role — leadership, teacher, specialist, and family.
- › **Calm & Regulation “Right Now” tools** — short guided resets that pair with the check-in.

HOW THE CLOSED LOOP WORKS

Screen → Route → Teach → Re-check

The check-in scores three domains; the lowest routes to a specific lesson and practice; you teach it; the next check-in shows movement. Print and screen use the same routing logic.

WHAT A PILOT ASKS OF YOU

- › **Name a site lead** to coordinate and receive the guides.
- › **Choose one or more grade bands** and deliver the lessons — Tier 1, universal, roughly one semester.
- › **Run the check-in** at the start, middle, and end of the pilot.
- › **Collect short feedback** using the role-based forms provided (teacher, specialist, family, student).

DATA & PRIVACY

- › **Local by default** — responses stay in the browser on the device used. No account, no login; nothing is tracked, sold, or sent to Architecture of Grace.
- › **Optional school sync** — a school may pool results into its OWN Google Sheet via Apps Script. FERPA/PPRA-aligned; SEL journals stay private instructional materials.

WHAT YOU'LL HAVE AT THE END

Pre/post movement on all three domains, MTSS tier data, and teacher, family, and student feedback — the evidence to make a clear adoption decision.
